Robins Air Force Base — 30 Gal Pressure Pot System

NEXT™ 30, 70 & 80 Models

The Pressure Pot Cleaner System was designed to handle the cleaning of the pressurized pot & fluid lines typically found in large or high production operations.

TURBO is a unique system that provides a Pre-Clean & Rinse capability through the fluid line. While turbulent compressed air is added providing the Turbo cleaning effect. The compressed air then can dry the lines.

BECCA®

It's all about improving your productivity, finishing quality, & saving money.

In today's environment, operations know the meaning of efficiency, reduced cycle time and variable cost reduction. BECCA continues to redefine what a Solvent Recycler supplier should do for its customers:

Help Customers Succeed
